## Getting A Job A Study Of Contacts And Careers:

*Getting a Job* Mark Granovetter, 2018-06-29 This classic study of how 282 men in the United States found their jobs not only proves it's not what you know but who you know but also demonstrates how social activity influences labor markets. Examining the link between job contacts and social structure, Granovetter recognizes networking as the crucial link between economists' studies of labor mobility and more focused studies of an individual's motivation to find work. This second edition is updated with a new Afterword and includes Granovetter's influential article *Economic Action and Social Structure: The Problems of Embeddedness*. Who would imagine that a book with such a prosaic title as *getting a job* could pose such provocative questions about social structure and even social policy. In a remarkably ingenious and deceptively simple analysis of data gathered from a carefully designed sample of professional, technical, and managerial employees, Granovetter manages to raise a number of critical issues for the economic theory of labor markets as well as for theories of social structure by exploiting the emerging social network perspective. Edward O. Laumann, *American Journal of Sociology*. This short volume has much to offer readers of many disciplines. Granovetter demonstrates ingenuity in his design and collection of data. Jacob Siegel, *Monthly Labor Review*. A fascinating exploration for Granovetter's principal interest lies in utilizing sociological theory and method to ascertain the nature of the linkages through which labor market information is transmitted by friends and relatives. Herbert Parnes, *Industrial and Labor Relations Review*. Michael Farr, Richard Gaither, R. Michael Pickrell, 1995 The development of the book began with the authors' attempts to provide job seekers with a proven simple method for finding work in the shortest possible time and with the least amount of anxiety and fear. The book was designed to meet the two objectives: To decrease the amount of time you spend looking for work once you actively begin your job search. To eliminate much of the fear associated with looking for work and participating in an interview. The book will teach you the skills you need to be more effective, efficient, and productive as a job seeker. *Introduct* *Careers in the Nonprofit Sector* Terry W. McAdam, 1986 **Understanding Careers** Kerr Inkson, 2006-07-07 *Understanding Careers: The Metaphors of Working Lives* uses a unique framework of nine archetypal metaphors to encapsulate the field of career studies. Using an easy-to-read style, author Kerr Inkson examines key concepts, illustrating them with over 50 authentic career cases to build an excellent bridge between theory and real life. **The Career Development Bibliography**, 1979 [Get the Right Job in 60 Days or Less](#) Richard H. Beatty, 1991-04-08 Identifies the sources and methods statistically proven to be most productive in job hunting and includes special short cuts, tricks, and techniques designed to provide meaningful time savings.
