## **Exposed Romantic Relationships:**

Falling in Love Ayala Pines, Ayala Malach Pines, 2013-05-13 *Falling in Love* is the first book to unlock the mysteries of how and why we fall in love. Renowned psychologist Ayala Pines shows us why we fall for the people we do and argues convincingly that we love neither by chance nor by accident. She offers sound advice for making the right choices when it comes to this complicated emotion. Packed with helpful suggestions for those seeking love and those already in it, this book is about love's many puzzles. The second edition furthers the work of the popular and successful first edition. With expanded research, theory, and practice, this book once again provides one of a kind understandings of the experience of love. The new edition offers updated references to recent research, new chapter exercises, and case examples of romantic stories to begin each chapter.

**The Psychology of Romantic Relationships** Ami Rokach, Erez Zverling, Ami Sha'ked, 2025-08-01 *Psychology of Romantic Relationships* delves into the myriad factors that contribute to successful relationships. Starting with *Intimacy in Romantic Relationships*, the book unveils new facets of the complex dynamics underpinning successful marriages. From the pivotal role of communication and trust to the delicate balance of gratitude and forgiveness, each chapter provides insightful knowledge to understand and enhance marital bonds. Furthermore, the book covers additional essential aspects such as the importance of mutual respect, the role of shared activities in bonding, and the impact of individual growth on relationship harmony. It is a must-read for psychologists, therapists, and anyone interested in the intricacies of love. Combines theoretical insights with real-world applications. Reviews what constitutes a marriage, including trust, attitudes, and control. Outlines the key factors that contribute to the problems and obstacles in an intimate relationship.

**Philosophy of Love in the Past, Present, and Future** André Grahle, Natasha McKeever, Joe Saunders, 2022-01-25 This volume features original essays on the philosophy of love. The essays are organized thematically around the past, present, and future of philosophical thinking about love. In Part I, the contributors explore what we can learn from the history of philosophical thinking about love. The chapters cover Ancient Greek thinkers, namely Plato and Aristotle, as well as Kierkegaard's critique of preferential love and Erich Fromm's mystic interpretation of sexual relations. Part II covers current conceptions and practices of love. These chapters explore how love changes over time, the process of falling in love, the erotic dimension of romantic love, and a new interpretation of grand parental love. Finally, Part III looks at the future of love. These chapters address technological developments related to love, such as algorithm-driven dating apps and robotic companions, as well as the potential of polyamory as a future romantic ideal. This book will be of interest to researchers and advanced students in moral philosophy and social and political philosophy who are working on issues related to the philosophy of love.
