Online a Lot of the Time Ken Hillis, 2009-05-27 A theorization of how rituals that would formerly have required participants to gather in one physical space are reformulated for the Web Reading by Design Pauline Reid, 2019-04-08 Renaissance readers perceived the print book as both a thing and a medium a thing that could be broken or reassembled and a visual medium that had the power to reflect transform or deceive At the same historical moment that print books remediated the visual and material structures of manuscript and oral rhetoric the relationship between vision and perception was fundamentally called into question Investigating this crisis of perception Pauline Reid argues that the visual crisis that suffuses early modern English thought also imbricates sixteenth and seventeenth century print materials These vision troubles in turn influenced how early modern books and readers interacted Platonic Aristotelian and empirical models of sight vied with one another in a culture where vision had a tenuous relationship to external reality Through situating early modern books design elements such as woodcuts engravings page borders and layouts as important rhetorical components of the text *Reading by Design* articulates how the early modern book responded to epistemological crises of perception and competing theories of sight *Religious Transhumanism and Its Critics* Arvin M. Gouw, Brian Patrick Green, Ted

Peters, 2022-03-10 Why do representatives of different religious traditions find the transhumanist vision of the future not only theologically compatible but even inspiring Transhumanism is a global movement seeking radical human enhancement The trans in transhumanism marks the transition from the present stage in human evolution into the future namely post human existence Containing chapters written by adherents to a variety of religious traditions *Religious Transhumanism and Its Critics* provides first hand testimony to the value of the transhumanist vision perceived by the religious mind In addition the contributors critique both secular and religious transhumanism in light of realistic science and commitment to social justice
