Statistical Analysis of Financial Data James Gentle, 2020-03-12 Statistical Analysis of Financial Data covers the use of statistical analysis and the methods of data science to model and analyze financial data The first chapter is an overview of financial markets describing the market operations and using exploratory data analysis to illustrate the nature of financial data The software used to obtain the data for the examples in the first chapter and for all computations and to produce the graphs is R However discussion of R is deferred to an appendix to the first chapter where the basics of R especially those most relevant in financial applications are presented and illustrated The appendix also describes how to use R to obtain current financial data from the internet Chapter 2 describes the methods of exploratory data analysis especially graphical methods and illustrates them on real financial data Chapter 3 covers probability distributions useful in financial analysis especially heavy tailed distributions and describes methods of computer simulation of financial data Chapter 4 covers basic methods of statistical inference especially the use of linear models in analysis and Chapter 5 describes methods of time series with special emphasis on models and methods applicable to analysis of financial data Features Covers statistical methods for analyzing models appropriate for financial data especially models with outliers or heavy tailed distributions Describes both the basics of R and advanced techniques useful in financial data analysis Driven by real current financial data not just stale data deposited on some static website Includes a large number of exercises many requiring the use of open source software to acquire real financial data from the internet and to analyze it

European Porcelain in The Metropolitan Museum of Art

Jeffrey Munger, Elizabeth Sullivan, 2018-05-09 Porcelain imported from China was the most highly coveted new medium in sixteenth and early seventeenth century Europe Its pure white color translucency and durability as well as the delicacy of decoration were impossible to achieve in European earthenware and stoneware In response European ceramic factories set out to discover the process of producing porcelain in the Chinese manner with significant artistic technical and commercial

ramifications for Britain and the Continent Indeed not only artisans but kings noble patrons and entrepreneurs all joined in the quest hoping to gain both prestige and profit from the enterprises they established This beautifully illustrated volume showcases ninety works that span the late sixteenth to the mid nineteenth century and reflect the major currents of European porcelain production Each work is illustrated with glorious new photography accompanied by analysis and interpretation by one of the leading experts in European decorative arts Among the wide range of porcelains selected are rare blue and white wares and figures from Italy superb examples from the Meissen factory in Germany and the Sèvres factory in France and ceramics produced by leading British eighteenth century artisans Taken together they reveal why the Metropolitan Museum's holdings in this field are among the finest in the world

Visual Voyages Daniela Bleichmar, 2017-01-01 An unprecedented visual exploration of the intertwined histories of art and science of the old world and the new From the voyages of Christopher Columbus to those of Alexander von Humboldt and Charles Darwin the depiction of the natural world played a central role in shaping how people on both sides of the Atlantic understood and imaged the region we now know as Latin America Nature provided incentives for exploration commodities for trade specimens for scientific investigation and manifestations of divine forces It also yielded a rich trove of representations created both by natives to the region and visitors which are the subject of this lushly illustrated book Author Daniela Bleichmar shows that these images were not only works of art but also instruments for the production of knowledge with scientific social and political repercussions Early depictions of Latin American nature introduced European audiences to native medicines and religious practices By the 17th century revelatory accounts of tobacco chocolate and cochineal reshaped science trade and empire around the globe In the 18th and 19th centuries collections and scientific expeditions produced both patriotic and imperial visions of Latin America Through an interdisciplinary examination of more than 150 maps illustrated manuscripts still lifes and landscape paintings spanning four hundred years *Visual Voyages* establishes Latin America as a critical site for scientific and artistic exploration affirming that region's transformation and the transformation of Europe as vitally connected histories

Mrs. Delany & Her Circle Yale Center for British Art, Sir John Soane's Museum, 2009 At the age of seventy two Mary Delany nee Mary Granville 1700-1788 embarked upon a series of nearly a thousand botanical collages or paper mosaics which would prove to be the crowning achievement of her rich creative life These delicate hand cut floral designs made by a method of Mrs Delany's own invention vie with the finest botanical works of her time More than two centuries later her extraordinary work continues to inspire Although best known for these collages Mrs Delany was also an amateur artist woman of fashion and commentator on life and society in 18th century England and Ireland Her prolific craft activities not only served to cement personal bonds of friendship but also allowed her to negotiate the interconnecting artistic aristocratic and scientific networks that surrounded her This ambitious and groundbreaking book the first to survey the full range of Mrs Delany's creative endeavors reveals the complexity of her
