Extraordinary Ordinary People A Memoir Of Family:

Extraordinary, Ordinary People Condoleezza Rice, 2011-10-11 This is the story of Condoleezza Rice that has never been told not that of an ultra accomplished world leader but of a little girl and a young woman trying to find her place in a sometimes hostile world of two exceptional parents and an extended family and community that made all the difference Condoleezza Rice has excelled as a diplomat political scientist and concert pianist Her achievements run the gamut from helping to oversee the collapse of communism in Europe and the decline of the Soviet Union to working to protect the country in the aftermath of 9 11 to becoming only the second woman and the first black woman ever to serve as Secretary of State But until she was 25 she never learned to swim because when she was a little girl in Birmingham Alabama Commissioner of Public Safety Bull Connor decided he d rather shut down the city s pools than give black citizens access Throughout the 1950 s Birmingham s black middle class largely succeeded in insulating their children from the most corrosive effects of racism providing multiple support systems to ensure the next generation would live better than the last But by 1963 Birmingham had become an environment where blacks were expected to keep their head down and do what they were told or face violent consequences That spring two bombs exploded in Rice s neighborhood amid a series of chilling Klu Klux Klan attacks Months later four young girls lost their lives in a particularly vicious bombing So how was Rice able to achieve what she ultimately did Her father John a minister and educator instilled a love of sports and politics Her mother a teacher developed Condoleezza s passion for piano and exposed her to the fine arts From both Rice learned the value of faith in the face of hardship and the importance of giving back to the community Her parents fierce unwillingness to set limits propelled her to the venerable halls of Stanford University where she quickly rose through the ranks to become the university s second in command An expert in Soviet and Eastern European Affairs she played a leading role in U S policy as the Iron Curtain fell and the Soviet Union disintegrated Less than a decade later at the apex of the hotly contested 2000 presidential election she received the exciting news just shortly before her father s death that she would go on to the White House as the first female National Security Advisor As comfortable describing lighthearted family moments as she is recalling the poignancy of her mother s cancer battle and the heady challenge of going toe to toe with Soviet leaders Rice holds nothing back in this remarkably candid telling
