Following this broader engineering education, some additional groups of students went on to study all engineering sciences. These included some international students, some students who returned to university for "broadening-based" courses, especially in some of the older, more traditional engineering disciplines, and some students who specialized in engineering sciences. These students contributed to the engineering sciences in a broad-based, general way, and some of them went on to study for a master's or doctorate degree in engineering sciences.

It will not be a surprise, however, to find that a third, and independently obtained, survey was equally as good. This means they have all agreed that selling their engineering services from a third party is a significant, or substantial, contribution to the business and is a sale.
