**Refusing Ecocide** William K. Carroll, 2024-11-19 Refusing Ecocide From Fossil Capitalism to a Liveable World provides a critical analysis of the central role of fossil capitalism in causing climate change and argues that only alternatives based upon democratic eco socialism can prevent the deepening of the climate crisis Employing three core concepts within historical materialism capitalist accumulation imperialism and hegemony it locates the existential threat of our changing climate in the drive for increasing profit and growth the domination of advanced capitalist states that strip resources and exploit cheap labour and the consent to the capitalist way of life in the global North With attention to the ways in which powered by fossil fuels capital has subjected the world to its predatory logic this book charts this history and surveys the damage from the Industrial Revolution to today s deep civilizational crisis arguing that the market based and purely technological solutions of climate capitalism are too little too late A call for a multifaceted and multi scalar shift away from capitalist accumulation imperialism and class hegemony and instead towards democratic eco socialism it will appeal to scholars across the social sciences with interests in political and social theory the environment and sustainability

Unity on the Global Left Barry K. Gills, Christopher Chase-Dunn, 2021-03-24 This book brings together a collection of essays by

progressive global activists in response to Samir Amin's call for a new global organization of progressive workers and peoples. Amin's proposal is applauded, criticized, and reformulated by these scholar activists who are all proponents of ways forward toward a more egalitarian world society. Samir Amin, a leading scholar and co-founder of the world system tradition, died on August 12, 2018. Just before his death, he published along with close allies a call for workers and the people to establish a fifth international to coordinate support for progressive movements. Amin, an Egyptian economist, was an intrepid intellectual and organizer of popular movements whose scholar activism provided inspiration to the global justice movement. The essays in this volume are by other prominent scholar activists who praise, critique, and reconfigure Amin's proposal in order to help humanity confront the contemporary crisis of global capitalism and move toward a more egalitarian global society. The chapters in this book were originally published in the journal *Globalizations*.
