Extraterritoriality And Collective Redress Extraterritoriality And Collective Redress:

Extraterritoriality and Collective Redress Duncan Fairgrieve, Eva Lein, 2012-09-27 Examines the extraterritorial effect of collective redress litigation looking at the way in which many collective redress issues span frontiers and thus involve complex transnational dynamics Includes detailed analysis of the law and jurisprudence with significant practical impact in this area

Extraterritoriality and Collective Redress Duncan Fairgrieve, Eva Lein, 2012 An expert analysis of the relevant law and jurisprudence in mass litigation this edited work examines the diverse and complex transnational considerations and issues of collective redress With contributions from distinguished and authoritative commentators on this topic the coverage is broad thorough and practically focused The book offers new perspectives on the challenges of collective redress as it innovatively combines a comparative and cross border approach Organized clearly into sections it provides in depth comment on these challenges from a national European and global perspective

Jurisdiction and Cross-Border Collective Redress Alexia Pato, 2019-07-11 In recent decades the rise in cross border law violations has harmed numerous victims around the globe The damages are often dispersed and low level As a result the private enforcement gap has deepened and collective redress represents an interesting procedural instrument that is able to provide effective access to justice This book analyses thoroughly the dominant collective redress models adopted in the EU Data from 13 Member States has been catalogued and categorised The research mainly focuses on the consumer law field but frequent references to financial and data protection related cases are made The dominant collective redress models are then studied from a private international law perspective In particular the book highlights the current mismatch between collective redress on the one hand and rules on international jurisdiction on the other Additionally it notes that barriers to cross border litigation remain significant for victims and their representatives The unprecedented empirical study included in this book confirms that statement Observing that EU measures have not satisfactorily lowered those barriers the author proposes the creation of a new head of jurisdiction for cases of international collective redress This book will be of interest to private international law scholars researchers students legal practitioners judges and policy makers It is a reference point for those with an interest in cross border collective redress in particular and private international law in general

Class Actions in Europe Alan Uzelac, Stefaan Voet, 2021-06-23 Not so long ago class actions were considered to be a textbook example of American exceptionalism many of their main features were assumed to be incompatible with the culture of the civil law world However the tide is changing while there are now trends in the USA toward limiting or excluding class actions notorious cases like Dieselgate are moving more and more European jurisdictions to extend the reach of their judicial collective redress mechanisms For many new fans of class actions collective redress has become a Holy Grail of sorts a miraculous tool that will rejuvenate national systems of civil justice and grant them unprecedented power Still while the introduction of various forms of representative action has virtually become a fashion it is anything but certain that attempting to transplant American style

class action will be successful European judicial structures and legal cultures are fundamentally different which poses a considerable challenge This book investigates whether class actions in Europe are indeed a Holy Grail or just another wrong turn in the continuing pursuit of just and effective means of protecting the rights of citizens and businesses It presents both positive and critical perspectives supplemented by case studies on the latest collectivization trends in Europe's national civil justice systems The book also shares the experiences of some non European jurisdictions that have developed promising hybrid forms of collective redress such as Canada Brazil China and South Africa In closing a selection of topical international cases that raise interesting issues regarding the effectiveness of class actions in an international context are studied and discussed

Electronic Consumer Contracts in the Conflict of Laws Zheng Sophia Tang, 2015-10-22 The second edition of this highly recommended work addresses the interaction between conflict of laws dispute resolution electronic commerce and consumer contracts In addition it identifies specific difficulties that conflicts lawyers and consumer lawyers encounter in electronic commerce and proposes original approaches to balance the conflict of interest between consumers access to justice and business efficiency The European Union has played a leading role in this area of law and its initiatives are fully explored It pays particular attention to the most recent development in collective redress and alternative online dispute resolution By adopting multiple research methods including a comparative study of the EU and US approach historical analysis of protective conflict of laws doctrinal analysis of legal provisions and economic analysis of law it provides the most comprehensive examination of frameworks in cross border consumer contracts

Policy within and through law J. De Bruyne, M. de Potter de ten Broeck, I. Van Hiel, 2015-06-30 Practising law whether as a politician a judge a lawyer or an academic is to a certain degree creating or influencing policy Walter Van Gerven once wrote This statement and many other similar or opposite statements make one wonder about the nature of the policies concerned the identities of the decision makers and the rationale underlying those policies On these and related questions PhD researchers from different Belgian law schools debated at the ACCA conference held at Ghent University in May 2014 This book holds the fruits of those debates Hence the book contains concise contributions focusing on policy questions in matters related to various fields of law such as environmental constitutional civil social criminal procedural or EU law It seeks to provide an insight into the interplay between legislators and administrative bodies on the one hand and judges and legal scholars on the other hand bringing about the creation of a new policy or the adjustment or abolishment of an existing policy

Internationalization of Consumer Law Mateja Durovic, Hans W. Micklitz, 2016-11-11 This book examines the institutions that are producing consumer law at the international level the substantive issues enshrined in these laws and the enforcement mechanisms meant to ensure effective protection The majority of existing research is devoted to the comparative perspective between countries or between the US and the EU This book investigates the forceful activities of international and regional organizations and shifts the focus of research to the internationalization of consumer law which is largely neglected in

particular in the Western centered political and legal debate Much of what constitutes consumer law today is focused on banking and finance and more broadly the financialization and digitalization of the global economy and society has created a shift in international consumer law production This book investigates the role that international organizations have on the creation and enforcement of consumer law and will be of interest to consumer lawyers practitioners and officials in organizations such as the United Nations European Union and World Bank Cross-Border Class Actions Arnaud Nuyts, Nikitas E. Hatzimihail, 2013-12-19 Whether with regard to mass torts civil rights claims or as a means of private enforcement of antitrust and other regulatory policies Collective redress of civil claims has been gaining in importance in Europe and worldwide Long associated with the American model of class actions an increasing number of EU Member States have made their own attempts at collective redress institutions At the same time the amendment of the Brussels I Regulation has shied away from dealing with the cross border aspects of collective redress In this book a worldwide group of distinguished experts in private international law civil procedure and regulatory law evaluate the problems of cross border collective redress and provide proposals for a European way appropriate for the twenty first century This very topical work is thus indispensable for practitioners academics lobbyists and institutional agents **Journal of Transnational Law & Policy**, 2012 The Ottoman Empire and the Dutch Republic Alexander H. de Groot, 1978 *Publications de l'Institut historique et archéologique néerlandais de Stamboul*, 1978 **Proceedings of the Workshop on the Various Aspects Relating to the Impact of the Application of Unilateral Coercive Measures on the Enjoyment of Human Rights by the Affected Populations in the States Targeted** United Nations.
