KNOW YOUR GROWING ZONE

If you don't know your growing zone and last/first frost date, you run the risk of planting too early or wasting money on plants that just aren't viable in your region.

KNOW YOUR SUN EXPOSURE

Before you start planting, you need to know how much sun your garden gets and how much sun your plants need.

KNOW YOUR SOIL

Soil testing is something that should really be done once every three years so that you have a good picture of what is going on in your soil, and what may need to help improve its overall quality.

KNOW YOUR SEEDS

Before you begin planting take a look at the back of your seed packets and get organized.

DESIGN YOUR GARDEN

Rather than going into planting with no real plan, it is best to map out exactly how many and where your plants will be planted in your garden.
