problems with global and local implications requires that voices from all geographies genders and cultures be heard and that those people be involved in the Planetary Health Alliance PHA With that in mind the PHA proposed that the 4th Planetary Health Annual Meeting PHAM2021 would be hosted for the first time in the Global South After a selection process the University of S o Paulo USP was chosen to host the PHAM2021 in the city of S o Paulo Brazil USP and PHA worked together to develop the program The meeting motto reflects the overall concept Planetary Health for all bridging communities to achieve the Great Transition Also on our minds was a sense of urgency to promote actions as the Earth crisis continues to intensify all around the globe Then came the COVID 19 outbreak to emphasize the importance of spreading the word about PH as a comprehensive framework to understand our current situation and to promote change Intended to be held in person at the USP main campus we had to shift to a virtual meeting due to the pandemic We took that as an opportunity to expand the program across an entire week to declare the last week of April Planetary Health Week and call our event PH Meeting and Festival including arts sessions in the program as arts are an important way to connect people around PH Our audience increased tremendously while lowering our environmental footprint we had more than 5 000 registrants from 130 countries The narrative of the event was especially tailored to be aligned with the underlying event concept bringing foundations of PH values and knowledge and PH in action in the private sector government and civil society Each of them was the main theme of a day that week Finally we felt it was time for the global PH community to issue a call to action for a deep change and urgent response the S o Paulo Declaration on Planetary Health was developed openly and collaboratively by the global community with assistance from the United Nations Development Program and was released after the event At the end and after all the hard work we felt very satisfied with the results the ample participation and with an innovative event that will certainly inspire the next editions

Enoch Roden's training. By the author of 'Jessica's first prayer'. By Hesba Stretton Sarah Smith,1885 **Best Laid Plans** Jessica Halliday Hardie,2022-08-30 Given the range of possibilities open to women today what futures do adolescent girls dream of and pursue And how do social class and race play into their trajectories In asking young women about their aspirations in three areas school work and family Best Laid Plans demonstrates how future plans are framed by notions of gendered responsibilities and abilities Through her examination of the lives of poor working class and middle class Black and White young women as they navigate the transition to adulthood sociologist Jessica Halliday Hardie defines anew what it means for young women to come of age In particular Hardie shows how social capital either possessed or lacked is not simply a resource for planning for the future but a structure whose form and function varies by social class and race As these inequalities persist into adulthood high aspirations social capital and careful planning bolster some young women while hindering others Drawing on qualitative data from a five year period Best Laid Plans makes the case for why we need to move beyond the individual appeal to dream bigger and plan better and toward systematic changes that will put young people s aspirations within reach *AP® Psychology All Access Book +*

founders of famous technology companies about what happened in the very earliest days These people are celebrities now What was it like when they were just a couple friends with an idea Founders like Steve Wozniak Apple Caterina Fake Flickr Mitch Kapor Lotus Max Levchin PayPal and Sabeer Bhatia Hotmail tell you in their own words about their surprising and often very funny discoveries as they learned how to build a company Where did they get the ideas that made them rich How did they convince investors to back them What went wrong and how did they recover Nearly all technical people have thought of one day starting or working for a startup For them this book is the closest you can come to being a fly on the wall at a successful startup to learn how it's done But ultimately these interviews are required reading for anyone who wants to understand business because startups are business reduced to its essence The reason their founders become rich is that startups do what businesses do create value more intensively than almost any other part of the economy How What are the secrets that make successful startups so insanely productive Read this book and let the founders themselves tell you
