Educational Leadership and Louis Farrakhan Abul Pitre, 2017-02-08 Drawing from Louis Farrakhan's decades of teaching on education and leadership this volume brings his ideas into the educational leadership discourse It explores through a critical framework the purpose of education disclosing how those in powerful positions have

shaped educational policy to use schools and universities for their benefit The book inspires educational leaders to serve the best interest of those under their leadership In a spiritual tone it discusses the purpose of education leadership as love servant leadership transformative leadership and futuristic leadership In the 21st century leadership for social justice has become a major theme and in this volume Louis Farrakhan s many years of working for equal justice on behalf of historically underserved groups is applied to the practice of educational leadership in K 12 and higher education *The Leadership Jump* Jimmy Long,2010-02-04 Leadership is changing Not only are established leaders passing the baton to up and coming leaders the very nature of leadership is being transformed Veteran leader and cultural observer Jimmy Long has discerned how leadership positions and roles have changed in light of societal shifts Authority is no longer derived from positional status but is earned from relational credibility Leaders focus not only on tasks but on community And leadership is less about directing followers to a particular destination and more about empowering others on a shared journey Existing leaders cannot write off emerging leaders because they work differently Nor can younger leaders dismiss the contributions of those who have gone before Here is a book that offers a positive vision for intergenerational partnership and leadership transference rather than competition The practical tools outlined here will help existing and emerging leaders understand each others leadership styles and collaborate fruitfully for the sake of the kingdom **Afro-global Management**
