Fire Raisers, Freaks and Fiends Ed Nordskog, 2013-09-18 An award winning arson investigator brings you over thirty cases from his own files and those of his colleagues These true case histories cover the entire spectrum of arson crimes from the hapless goof to the most evil and obsessive fiends of them all Among this collection are the erratic street denizens who are the serial arsonists This group wanders your streets at night igniting anything that strikes their fancy A more dangerous and dedicated group is the mission men who are trying to set a fire or explosion of cataclysmic proportions with deadly intentions The most colorful and odd group in this book has been labeled whackjobs weirdos and wannabes This group consists of phonies masquerading as firefighters cops secret agents and others The chapter on mad men shows how much a man's hate will drive him until all rational thought goes out the window The author Ed Nordskog has been a police detective for over 23 years and a specialist in arson and bomb investigations for the past 17 years His beat is the sprawling Los Angeles basin with its over nine million citizens His case histories in this book are a mere sampling of his 1 700 arson investigations He has arrested and sat face to face in cramped interview rooms with over 300 arsonists and bombers Some of these people are also rapists murderers gang members devil worshipers child molesters and child murderers Nordskog's first book *Torched Minds* Case histories of notorious serial arsonists has been widely accepted and lauded in the arson investigation field This exhaustive study focused on over 60 case histories of the more famous serial arson investigations Nordskog's current book goes into much more depth to chronicle the various subtypes of the more dangerous arsonists he's come across He shows obsessive compulsive stalkers and rapists He meets and speaks with several dangerous paranoid schizophrenics who have voices within their heads telling them to burn and kill He highlights a few suspects who went out on a fiery mission with very little expectation to survive the day and with the stated goal of taking as many victims with them as possible He introduces you to people who maim torture and kill helpless animals and family pets with poison and fire Lastly Nordskog introduces true crime readers to the shadowy world of arson investigation and to the investigators themselves The cases in this book are weirder or more bizarre than can be dreamt up by a Hollywood screenwriter They are all also 100% true These cases cover an area from the Los Angeles basin through the desert region and along the foothills and forests that run up and down the entire state of California Det Ed Nordskog has been an arson bomb investigator undercover narcotics detective and a detective working burglaries robberies auto theft and other major crimes He has a Master's Degree and has received over 85 awards for his investigative work to include Law Enforcement Officer of the Year and International Arson Investigator of the Year He continues to work as an arson bomb investigator for the Los Angeles Sheriff's Department He is an active lecturer and instructor in this field for the State of California the California Conference of Arson Investigators and the International Association of Arson Investigators

**The Arsonist Profiles** Ed Nordskog, 2016-08-18 The author Detective Ed Nordskog is an internationally recognized expert on arson serial arson criminal bombers and arsonists The

Arsonist Profiles is his third book describing the unique crimes of arson and serial arson and the individuals who commit them Nordskog approaches this subject from a very unique perspective He is the senior arson investigator for the Los Angeles Sheriff's Department largest and busiest arson bomb unit in the United States and has personally conducted over 2 000 arson investigations He has been a cop for over thirty years and a Detective for twenty six years Nordskog not only has studied and written extensively about serial arsonists he has been a Lead Investigator or co Investigator on over 55 serial arson investigations and has advised other police and fire agencies on several more He has personally studied over 900 serial arson cases from around the world Nordskog is one of only a small handful of arson profilers in the world and probably the only one working as an active detective on arson and bomb cases As part of his daily duties Det Nordskog visits arson scenes processes evidence develops leads and then tracks down the fire offender He has been involved in the arrests and prosecutions of over 300 arsonists in his career Several of those arsonists have been sentenced to decades in prison while a couple more have been sentenced to Death Det Nordskog differs from other profilers in this field as he is able to sit face to face and interview the arsonist in their most vulnerable and candid moments that first few hours after their arrest It is at this important juncture that the truth often comes out The arsonist is usually too exhausted or disoriented to form coherent lies and has not been contaminated with alibis and excuses by jailhouse lawyers defense attorneys and psychologists Nordskog has looked into the eyes of the arsonists as they speak He has talked to their victims their families and their friends He has searched their homes and rooms and read their emails texts computer searches and journals He has delved into the lair of the arsonist and has found as much truth as there is to find By these standard investigation techniques Nordskog has accumulated information and helped refine and develop profiling techniques for these unique offenders He has learned that arsonists are not easily defined and are extremely complex criminals No single profile fits all and Nordskog has learned of several types and sub types in this genre He knows that most arsonists are classified best by the motive of their attacks and by the sophistication of the ignition scenario In The Arsonist Profiles Det Ed Nordskog breaks down the motives of arson and the sub types within the motives He talks about the red flags of arson staging arson scenes targeting methods of arsonists pattern analysis and incendiary device analysis Nordskog describes the sub types of arsonists to include females juveniles gang organized crime groups profit related arson extremist groups and the most common motive of all the revenge based arsonists As usual Nordskog tells his stories through detailed analysis of his own arson investigations and from those of other recognized investigators in the field The short case histories are raw and honest and highlight both the good and bad of arson investigation and the criminal justice system This third book The Arsonist Profiles is a natural follow up by Nordskog to his first two books Torched Minds Case histories of notorious serial arsonists and Fireraisers Freaks and Fiends Obsessive Arsonists in the California foothills Nordskog's books are must reads for all criminal investigators prosecutors fire chiefs and true crime buffs They should also be required reading for any mental health professionals who are dabbling in this field
