Fire Season Field Notes From A Wilderness Lookout:

Fire Season Philip Connors, 2011-04-05 *Fire Season* both evokes and honors the great hermit celebrants of nature from Dillard to Kerouac to Thoreau and I loved it J R Moehringer author of *The Tender Bar* Connors's adventures in radical solitude make for profoundly absorbing restorative reading Walter Kirn author of *Up in the Air* Phillip Connors is a major new voice in American nonfiction and his remarkable debut *Fire Season* is destined to become a modern classic An absorbing chronicle of the days and nights of one of the last fire lookouts in the American West *Fire Season* is a marvel of a book as rugged and soulful as Matthew Crawford's bestselling *Shop Class as Soulcraft* and it immediately places Connors in the august company of Edward Abbey Annie Dillard Aldo Leopold Barry Lopez and others in the respected fraternity of hard boiled nature writers

The Mountain Knows the Mountain Philip Connors, 2025-09-16 From firewatcher poet comes a powerfully meditative work with a basis in Japanese poetic form Haibun comps are Peter Matthiessen's *Snow Leopard* and *The Nine Headed Dragon River* Terry Tempest Williams Barry Lopez and even Norman MacLean's *Young Men and Fire* Multi award winning writer Philip Connors had been a fire watcher in the Gila Wilderness for fourteen straight summers when he sustained an injury and was forced to miss a year recovering When he returned he resolved to see the mountain with fresh eyes and to keep a detailed notebook The result is *The Mountain Knows the Mountain* a meticulously observed experience of one fire season chronicled in haibun the centuries old prose form dating from Basho's *Narrow Road to the Interior* that recounts both inner and outer journeys and incorporates traditional haiku as an occasional element of narrative counterpoint Though only a beginner in the practice of haiku Connors deftly weaves close observation personal reflection and memory with hard won knowledge of the forest of the mountain and of fire *The Mountain Knows the Mountain* is both mythic and immediate a chronicle of daily events granular in their specificity but connected to larger themes of the observed world and the inner life of the observer Connors captures the various moods of a long season on a mountain plays with language and ways of seeing and includes contributing perspectives from his partner Mónica Ortiz Uribe and his friend the late editor and publisher Bobby Byrd Together with the author's own simple drawings the resulting snapshots offer incisive visions of how to be intimate with the wild

Fire Season Philip Connors, 2242732, 2012 For nearly a decade Philip Connors has spent half of each year in a small room at the top of a tower on top of a mountain alone in millions of acres of remote American wilderness His job to look for wildfires Capturing the wonder and grandeur of his work *FIRE SEASON* evokes the eerie pleasure of solitude and the majesty might and beauty of untamed fire Connors time up on the peak is filled with drama fires spectacular midnight lightning storms and silent mornings awakening above the clouds surprise encounters with smokejumpers black bears and an abandoned dying fawn

The Burning Season Caroline Starr Rose, 2025-05-13 In this riveting coming of age survival story in verse perfect for fans of Alan Gatz a fire lookout in training must find her courage when a wildfire breaks out on her watch Twelve year old Opal has a secret she's deathly afraid of fire Still Opal is preparing to become a fourth

generation lookout on Wolf Mountain deep in the New Mexico wilderness She Mom and Gran live at ten thousand feet in a single room at the top of a fire tower They are responsible for spotting any hint of smoke before it becomes an uncontrollable blaze Instead of training for the lonely life of a lookout Opal wishes she could be starting seventh grade in Silver City attending real classes with kids her own age and even going to afterschool clubs like FFA But Wolf Mountain has other ideas When Mom makes the long trek to town for supplies and Gran goes missing Opal is the only one to spot a tell tale spiral of smoke moving up the mountainside She ll have to be braver than she s ever been as she heads into the woods beyond Wolf Ridge s old blackened burn scar to face down a fire on her own But when a fire is what took her father away and Opal herself knows the sting of smoke and lick of flames how can she be brave enough when it really counts **Fire: A Very Short**

Introduction Andrew C. Scott,2020-06-25 Fire is rarely out of the headlines from large natural wildfires raging across the Australian or Californian countrysides to the burning of buildings such as the disasters of Grenfell tower and Notre Dame Fire on these scales can represent a serious risk to human life and property But the advent of fire made and controlled by humans also represented a crucial point in our evolution allowing us to cook our food forge our weapons and warm our homes This Very Short Introduction covers the fundamentals of fire whether wild or under human control starting with the basics of ignition combustion and fuel Andrew Scott considers both natural wildfires and the role of humans in making and suppressing fire Despite frightening reports of wildfire destruction he also shows how landscape fires have been part of our planet s history for 400 million years and do not always have to be extinguished He also considers the problem of fires in urban settings including new ways to prevent fires The cost of wildfire can be steep as well as the burning post fire erosion and flooding can have a great impact on both humans and the environment It can also have a lasting effect in shaping ecosystems and plant life Scott ends by examining the relationship between fire and the climate and considering the future of wildfire in a warming world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *A Song for the River* Philip Connors,2018-09-18 Southwest Book Award BRLA Notable Book Sigurd Olson Nature Writing Award Amazon Book Review Best Nonfiction of 2018 2018 Publisher s Weekly Best Books of the Year Nonfiction 2018 Southwest Books of the Year Outside Magazine Pick for Best Adventure Books of the Season NPR Summer Reading List Pick From one of the last fire lookouts in America comes this sequel to the award winning *Fire Season* a story of calamity and resilience in the world s first Wilderness A dozen years into his dream job keeping watch over the Gila Wilderness of New Mexico Philip Connors bore witness to the wildfire he had always feared a conflagration that forced him off his mountain by helicopter and changed forever the forest and watershed he loved It was merely one of many transformations that arrived in quick succession not just fire and flood but illness divorce the death of a fellow lookout in a

freak accident and a tragic plane crash that rocked the community he called home At its core an elegy for a friend he cherished like a brother A Song for the River opens into celebration of a landscape redolent with meaning and the river that runs through it Connors channels the voices of the voiceless in a praise song of great urgency and makes a plea to save a vital piece of our natural and cultural heritage the wild Gila River whose waters are threatened by a potential dam Brimming with vivid characters and beautiful evocations of the landscape A Song for the River carries the story of the Gila Wilderness forward to the present precarious moment and manages to find green shoots everywhere sprouting from the ash Its argument on behalf of things wild and free could not be more timely and its goal is nothing less than permanent protection for that rarest of things in the American West a free flowing river the sinuous and gorgeous Gila It must not perish **The Great Conversation** Belden C. Lane, 2019 In the face of climate change species loss and vast environmental destruction Belden C Lane s spiritually centered environmentalism suggests that we must look to teachers in nature to understand how to save ourselves Pairing anecdotes of personal encounters with nature with the teachings of spiritual leaders from a range of religious traditions this book invites us to participate once more in the great conversation among all creatures and the earth itself **All the Wrong Places** Philip Connors, 2015-02-24 The prize winning author of Fire Season returns with the heartrending story of his troubled years before finding solace in the wilderness In his debut Fire Season Philip Connors recounted with lyricism wisdom and grace his decade as a fire lookout high above remote New Mexico Now he tells the story of what made solitude on the mountain so attractive the years he spent reeling in the wake of a family tragedy At the age of twenty three Connors was a young man on the make He d left behind the Minnesota pig farm on which he d grown up and the brother with whom he d never been especially close He had a magazine job lined up in New York City and a future unfolding exactly as he d hoped Then one phone call out of the blue changed everything All the Wrong Places is a searingly honest account of the aftermath of his brother s shocking death exploring both the pathos and the unlikely humor of a life unmoored by loss Beginning with the otherworldly beauty of a hot air balloon ride over the skies of Albuquerque and ending in the wilderness of the American borderlands this is the story of a man paying tribute to the dead by unconsciously willing himself into all the wrong places whether at the copy desk of the Wall Street Journal the gritty streets of Bed Stuy in the 1990s or the smoking rubble of the World Trade Center With ruthless clarity and a keen sense of the absurd Connors slowly unmasks the truth about his brother and himself to devastating effect Like Cheryl Strayed s Wild this is a powerful look back at wayward years and a redemptive story about finding one s rightful home in the world *Fire Eaters* Peter Pigott, 2025-04-29 The riveting history of how aircraft have transformed the fighting of wildfires Throughout history when threatened by wildfires our only defense was to pray for rain and run until aircraft changed the way we fight fires Beginning with the Canadian H Boats in 1924 aircraft have become indispensable in detecting and extinguishing wildfires Fire Eaters tells the incredible stories of the Ontario Provincial Air Service the first government aerial fire suppression organization in

history one of its pilots Carl Crossley who invented the water scoop up and drop off system and the Canadair CL 215 the first purpose built water bomber Today helicopters with Bambi Buckets and snorkels can dump water while hovering directly over the flames and Air Tractors and Dash 8 400AT air tankers not only perform a crucial role in saving communities but also protect our ecosystem Satellites unmanned aircraft able to fly for sixteen hours even overnight when manned aircraft do not and artificial intelligence already play a decisive role in fire management But it is the men and women of the aerial fire service who have really changed the way we fight fire around the world Their bravery and dedication mean that response times are fast fires can be contained sooner and people have the chance to save rather than lose everything New Mexico Magazine ,2011 **The Literary Review** ,2011 **Western American Literature** ,2011 **The Spectator** ,2011
