Fireforce One Mans War In The Rhodesia Light Infantry:

Fireforce Chris Cocks, 2011-07-15 The horror of guerrilla warfare in Africa *Fireforce* is the compelling brutal but true account of Chris Cocks's service in 3 Commando The Rhodesian Light Infantry during Zimbabwe's bitter civil war of the 70s a war that came to be known almost innocuously as the bush war *Fireforce* a tactic of total airborne envelopment was developed and perfected by the RLI together with the Selous Scouts and the Rhodesian Air Force *Fireforce* became the principal strike weapon of the beleaguered Rhodesian forces in their struggle against the overwhelming tide of the Communist trained and equipped ZANLA and ZIPRA guerrillas The combat strain on a fighting soldier was almost unbelievable for the Rhodesians who were always desperately short of ground troops were sometimes obliged to parachute the same men into action into as many as three enemy contacts a day While estimates of enemy casualties vary there seems little doubt that the RLI accounted for at least 12 000 ZANLA and ZIPRA guerrillas but not without cost *Fireforce* is not for the squeamish Although it has been written with unforgettable pathos and humour it tells of face to face combat in the bush and death at point blank range It is a book which does nothing to glorify or glamorize war for as Chris Cocks found at such a young age war is merely a catalogue of suffering destruction and death *Fireforce* has been described by critics as being to the Rhodesian War what *All Quiet On The Western Front* was to World War I and *Dispatches* was to Vietnam Read it it will be an experience you never forget Chris Cocks lives in Johannesburg This is the fourth edition of *Fireforce* He is a partner in the South African Publishing house 30 South Publishers Cocks is also the author of *Out of Action* and co author of *The Saints The Rhodesian Light Infantry*

Fire Force Chris Cocks, 2020-06-01 *Fire Force* is the account of Chris Cocks's service in 3 Commando The Rhodesian Light Infantry RLI during Zimbabwe's civil war of the 1970s a war that came to be known almost innocuously as the bush war *Fire Force* a tactic of total airborne airmobile envelopment was developed by the RLI and became the principal strike weapon of the beleaguered Rhodesian forces in their struggle against the tide of the communist trained and equipped ZANLA and ZIPRA guerrillas Like Reitz's work *Commando A Boer Journal of the Boer War* *Fire Force* by first time author Chris Cocks is a personal account of close quarter warfare It is a unique compelling sometimes brutal account of a young conscript's three years of service in the elite Rhodesian Light Infantry Cocks's work is one of the very few books which adequately describes the horrors of war in Africa *Fire Force* is the best book on the Rhodesian War that I have read Southern African Review of Books *Fire Force* will be to the Rhodesian War what *Remarque's All Quiet on The Western Front* was to World War I A high claim indeed but perhaps valid for this moving book is a classic in any sense The Star The narrative is raw it gives the book a veracity so complete that it will transport anyone involved in the ordeal back across the years with the force of a body blow Rhodesia does at last have its own version of Michael Herr's Vietnam experiences *Dispatches* A sense of regret is what really lingers that the whole nightmare had to happen at all The list of names of boys killed or scarred physically and mentally is moving beyond mere words The Financial Mail

Portugal's Bush War in Mozambique Al J. Venter, 2022-05-19 A new account of how Portugal fought a bush war in Mozambique for over a decade Portugal fought a bush war in Mozambique one of the most beautiful countries in the world for over a decade The small European nation was ranged against formidable odds and in the end was unable to muster the resources required to effectively take on the might of the Soviet Union and its collaborators every single communist country on the planet and almost all of Black Africa Yet Al Venter argues Portugal did not actually lose the war and indeed fought in difficult terrain with a good degree of success over an extended period It was radical domestic politics that heralded the end Mozambique is once again embroiled in a guerrilla war this time against a large force of Islamic militants many from Somalia and some Arab countries and unequivocally backed by Islamic State and the lessons of Mozambique's bush war are still relevant today

Africa Lost Dan Tharp, SOFREP, Brandon Webb, 2013-08-06 US military veteran and historian Dan Tharp's *Africa Lost* tells the inside story of some of the greatest special operators you've never heard of Some of the most explosive combat in Special Operations history is almost completely unknown to the Western World Everyone knows about Navy SEALs and Green Berets but nobody knows about the deep recce sabotage and direct action missions conducted by the Rhodesian SAS The Rhodesian Light Infantry was a killing machine participating in combat jumps every night during the heat of the Bush War The Selous Scouts were perhaps the most innovative and daring unconventional warfare unit in history which would pair white soldiers with turncoat black former terrorists who would then infiltrate enemy camps

Mafeking! Malcolm Flower-Smith, Edmund James Yorke, 2000 *Mafeking* ranks as one of the major military epics of the Anglo Boer War A courageous garrison led by British Army Colonel Baden Powell the founder of the Boy Scouts withstood more than seven months of starvation death and destruction before they were relieved A powerful story of human endurance

Echoes of an African War Chas Lotter, 1999 only the poets of the First World War have captured so compellingly the many moods of the young soldiers Prof Marcia Leveson President English Academy of Southern Africa The soldier poet of southern Africa matches his haunting poetry with authentic photos paintings and sketches to tell the story of the Rhodesian bush war *Echoes of an African War* follows the story of the teenaged army recruit who exchanged his home and his family for the world of barrack life It sketches the years until 1973 when a low intensity war allowed a young man to explore the African bush The story then bursts into the late 1970s when the conflict escalated into a vicious civil war It

covers the war's end in 1980 and the subsequent readjustment to civilian life before finishing in 1999 when as a mature man he looks back and remembers events that are now history. Most important of all, this work imparts to his children what it looked like to have been a soldier in Rhodesia's war. Chas Lotter has perfected the magic art of combining pathos and eeriness. His observations are canny and surgically precise as he gradually unfolds his story. Chas Lotter, the soldier poet of the Rhodesian war, had an unusual apprenticeship in the craft of poetry. Life began for him in Germiston, South Africa, in 1949. His family moved to Rhodesia in 1953 and it was there that he grew up on farms in the Bindura and Gatooma-Kadoma areas. He moved to Salisbury (Harare) in 1974 where he met his wife Avril. As a field medic, Sergeant Lotter served for nine years with frontline units of the Rhodesian Army. It was these years of action, emotion, and savage experience that fuelled the poet's fire in him. He started writing poetry on the backs of cigarette boxes in an attempt to deal with the realities of the war. From such humble beginnings emerged a series of vivid pictures of an African nation at war. Lotter's work was first published in Peter Badcock's volume *Shadows of War*. Subsequently, he collaborated with Badcock on another successful work, *Faces of War*. In 1984, he published his highly acclaimed *Rhodesian Soldier*, that blends photographs and verse to form a wide-ranging monograph of the Rhodesian war. His work has earned him membership of the English Academy of Southern Africa, and his poetry has been published around the world. He lives in Pretoria, South Africa.

Fire in the Sky Owen Coetzer, 2000. The horrifying story of the official British war policy toward the Orange Free State in the Anglo-Boer War. All but ignored in most histories, the British followed a scorched earth policy of total war in which more than 27,000 civilians, mainly women and children, were herded into concentration camps where they died in the most barbaric conditions. A shocking expose.

Survival Course Chris Cocks, C. J. Cocks, 1999. An electrifying account of 15 months as a squad leader in the Rhodesian Police Anti-Terrorist Unit that fought in the country's harsh eastern border region. This book provides a vivid ground-level view of counter-terrorist operations as well as the author's harrowing transition to civilian life in the post-war period. An important book about a little-understood period of African history.

Someone Else's War Anthony Rogers, 2000. Based on extensive interviews with mercenaries of many nationalities, this volume reveals how white mercenaries came to play a key role in the struggle for the Congo and how the end of the war in Vietnam coincided with the start of the war in Rhodesia, attracting a new generation of mercenary soldiers. The story moves on from the Angolan debacle of 1976 to a succession of operations in Africa and South America, an attempted coup in Malta, and to the mercenaries that flocked to the former Yugoslavia as the Balkan conflict worsened.
