Firing Lousy Board Members

And Helping the Others Succeed

Simone Joyaux

Shows nonprofit leaders how to:

- Pick the right board members in the first place
- Get the best performance from all board members
- Give useful feedback to "save" a lousy board member
- As a last resort, fire a lousy board member and move on

Firing Lousy Board Members And Helping The Others Succeed

R Sandford

Firing Lousy Board Members And Helping The Others Succeed:

Firing Lousy Board Members Simone Joyaux, 2014-01 Every organization deserves a good board and effective board members And every board member deserves a chance to be an effective board member But too often things aren't working Board members aren't effective and staff aren't helping them to be effective Or staff are doing all that is possible but the board member is causing too many problems This book tells you how to fix the situation This book explains why board members are or aren't effective And this book gives you specific strategies and tools to fire the lousy board members and help the others succeed Topics include Distinction between board and board member Finding the right board members Role of the governance committee Monitoring board members Tools include Board job description Performance expectations of the board member Evaluation tools Skills inventory As you read Firing Lousy Board Members you'll realize that this book is mostly about how to NOT fire people Instead the book focuses on finding the right board members and enabling them to be successful Firing is only a last resort But it's an important strategy to launch in some situations Unfortunately some organizations and their leadership are too afraid to do this important work What a shame The process is not as hard as you might think More importantly bad board members produce bad governance And bad governance is a huge risk for the nonprofit sector Bad governance can put your organization and its board members on the media's front page It's just not acceptable to keep poor performers around It's not fair to other board members It's not fair to staff And it isn't fair to the organization's mission Serving on a board is serious business Sadly too many boards and board members and staff too don't realize how serious this business is Read Firing Lousy Board Members before you continue down the wrong paths Read Firing Lousy Board Members and talk about the serious business of good governance and effective and ineffective board members This book is a quick and easy read User friendly fast and sometimes pretty funny The author Simone Joyaux has direct experience doing every thing described in this book Joyaux has been an executive director chief development officer board chair and chair of governance and fundraising committees Here is some reader applause about Firing Lousy Board Members At last The long overdue guide to making dreams of nonprofit organizations come true by exorcising the nightmare of lousy board members Simone Joyaux's lifetime of thoughtful proven experience in building strong organizations is distilled in this highly readable how to road map to success Read it then get started today on building great boards and culling bad board members Roger M Craver Editor The Agitator Ask yourself which is the priority the mission or the problem board member Mission must be the answer Simone Joyaux's concise direct clear guide gives you the road map to build a power board and confront problem members who jeopardize your mission Robbe Healey MBA ACFRE Vice President for Philanthropy Simpson Senior Services Firing a nonprofit board member Awkward But it may be a little easier after you read this book by the plain talking but insightful Simone Joyaux who says that poor performing trustees present a problem of board contamination Ruth McCambridge Editor in Chief Nonprofit Quarterly Stop the Nonprofit Board Blame Game

Hardy Smith, 2022-01-04 Why don't board members do what they're supposed to do Board members not meeting performance expectations is one of the most challenging issues faced by nonprofit organizations and causes considerable frustration among nonprofit leaders and they usually place the blame on board members However much of what has been written on this topic is based on opinions and experiences of staff professionals with solutions focused on more training of the board members Yet the problem persists So whatever advice that has been offered hasn't worked This book is different Author and expert leadership consultant Hardy Smith shows that most difficulties contributing to boards not performing as desired are self-inflicted by leaders who repeat flawed practices that could be avoided As a result Smith provides what numerous other books on this topic have not truly effective solutions Stop the Nonprofit Board Blame Game uses feedback from a wide variety of board members to reveal their unique perspectives explains why performance problems exist identifies realistic results oriented solutions shares proven how-tos for taking action This book is the only guide you need to improve the engagement and effectiveness of your board and strengthen relationships It will constructively transform your organization

Navigating Your Way to Startup Success Harlan Beverly, 2017-12-18 Startups like sailing vessels do not travel in straight lines The wind and the waves of the real world move the ship and your startup in unpredictable ways This book is designed to give you an analytical set of tools to help you navigate your startup or corporate innovation through the murky waters of real life Every business has failures No business succeeds without some change of plan Navigating Your Way to Startup Success will show you how to create a startup designed to test its assumptions so those that are not worthy fail often and fast This book builds on modern startup management techniques like Agile and Lean to bring an analytical and quantitative framework to the most common startup failures Navigating through those failures means finding your way to startup success Harlan T Beverly PhD holds a BS in Electrical and Computer Engineering an MBA from UT Austin and a PhD in Business from Oklahoma State University Harlan teaches entrepreneurship at the University of Texas at Austin He is also Assistant Director of the Jon Brumley Texas Venture Labs at UT Austin the world's first university business accelerator Harlan has successfully launched five hardware and 15 software products including the Killer NIC 2007 Network Product of the Year CPU Magazine He has raised over 30 million in venture financing in the challenging intersection of entertainment and technology
