so entangled in their own internal issues and further beset by reams of invisible red tape that they've lost sight of their core purpose. Inevitably they pay the price. Best selling author Martin Lindstrom combines numerous real life examples of corporate common sense gone wrong with his own ingenious plan for restoring logic and sanity to the companies and people that need it most. A must read for today's executives, managers and employees. *The Ministry of Common Sense* is funny, entertaining and immensely practical. **Global Trends on the Right to Information** ,2001 *F&S Index International Annual* ,1999 **Global Television and Film** Colin Hoskins, Stuart McFadyen, Adam Finn, 1997. This is the first non-specialist introduction to the economics of the contemporary film and television business. This global industry is significant both financially and culturally and the political economy of its trade is an extremely sensitive issue. Are cultural goods merely entertainment goods? And why does the US dominate this territory? The present volume offers a systematic structured explanation of how the global markets for TV and film operate while also discussing the implications for public policy and business strategy. By listing in detail the economic and cultural characteristics related to such trade the authors provide the tools necessary for the evaluation of international communications issues. They also stress the uniqueness of cultural products and put forth the argument that the economic and cultural development approaches to cultural issues can be largely reconciled. **African American Review** ,1999 A.T.A.
