The Discourse of Kingship in Classical Greece Carol Atack, 2019-10-11

This book examines how ancient authors explored ideas of kingship as a political role fundamental to the construction of civic unity, the use of kingship stories to explain the past and present unity of the polis, and the distinctive function or status attributed to kings in such accounts. It explores the notion of kingship offered by historians such as Herodotus as well as dramatists writing for the Athenian stage, paying particular attention to dramatic depictions of the unique capabilities of Theseus in uniting the city in the figure of the democratic king. It also discusses kingship in Greek philosophy, the Socratic identification of an art of kingship, and Xenophon and Isocrates' model of virtue monarchy. In turn, these allow a rereading of explorations of kingship and excellence in Plato's later political thought, seen as a critique of these models, and also in Aristotle's account of total kingship or *pambasileia*, treated here as a counterfactual device developed to explore the epistemic benefits of democracy. This book offers a fascinating insight into the institution of monarchy in classical Greek thought and society, both for those working on Greek philosophy and politics and also for students of the history of political thought.

World Literature Decentered Ian Almond, 2021-07-13

What would world literature look like if we stopped referring to the West? Starting with the provocative premise that the West is ten percent of the planet, *World Literature Decentered* is the first book to decenter Eurocentric discourses of global literature and global history, not just by deconstructing or historicizing them, but by actively providing an alternative. Looking at a series of themes across three literatures—Mexico, Turkey, and Bengal—the book examines hotels, melancholy, orientalism, femicide, and the ghost story in a series of literary traditions outside the West. The non-West, the book argues, is no fringe group or token minority in need of attention; on the contrary, it constitutes the overwhelming majority of this world.

Eulogised and ostracised: James Butler Hickok was alternately labelled courageous, affable, and self-confident; cowardly, cold-blooded, and drunken; a fine specimen of manhood, an overdressed dandy with perfumed hair, an unequalled marksman, and a poor shot. Born in Illinois in 1837, he was shot dead in Deadwood only 39 years later. By then, both famous and infamous, he was widely known as Wild Bill.

The Journey of Luke Skywalker Steven A. Galipeau, 2001

Jungian analyst Calipeu believes that *Star Wars* speaks to our deepest psychological and spiritual dilemmas. From Princess Leia's domination by Darth Vader to the introduction of The Force, from the Ewoks to the Stormtroopers, the author shows how and why the movie's themes and conflicts mirror our own.
