Getting To Know Germany And German:

Getting to Know Germany and German Janine Amos,1993 Introduces the geography culture and language of Germany explaining how to use and pronounce everyday words and phrases Germany as a Culture of Remembrance Alon Confino,2017-03-01 An acknowledged authority on German history and memory Alon Confino presents in this volume an original critique of the relations between nationhood memory and history applied to the specific case of Germany In ten essays three never before published and one published only in German Confino offers a distinct view of German nationhood in particular and of nationhood in general as a product of collective negotiation and exchange between the many memories that exist in the nation The first group of essays centers on the period from 1871 to 1990 and explores how Germans used conceptions of the local or Heimat to identify what it meant to be German in a century of ideological upheavals The second group of essays comprehensively critiques and analyzes the ways laypersons and scholars use the notion of memory as a tool to understand the past Arguing that the case of Germany contains particular characteristics with broader implications for the way historians practice their trade **Germany as a Culture of Remembrance** examines the limits and possibilities of writing history **Germany and the Germans from an American Point of View** Price Collier,1913 Let's Go Germany 13th Edition Stephanie O'Rourke,Let's Go Inc.,2006-11-28 Packed with travel information including more listings deals and insider

Confessions of a Heretic Eric Leland Saak,2025-06-15 This book is the second of a planned three volume systematic theology under the title *Confessions of a Heretic* Volume One which has the subtitle *Philosophical Considerations* was published by Archway in 2024 The project now turns to *Theological Considerations* with the forthcoming Volume Three being *Ecclesiological Consideration* Organized into three Parts Volume Two focuses on the theological endeavor and the doctrines distinctive to Christianity namely the Trinity Jesus Christ sin and salvation Based on the foundational distinctions and definitions explicated in Volume One the current volume seeks to ask what the philosophical considerations imply for basic traditional understandings and terminology of Christian theology including that of Jesus of Nazareth his crucifixion and resurrection The project as a whole adopts a trinitarian structure with this second volume focused on God the Son or as here termed God the Perfector The argument is that Christian Theology needs to shift from an anthropocentric to a theocentric approach recognizing human beings simply as creatures and having the courage to face what that entails Yet doing so necessitates a radical reconceptualization of the very foundations of Christian Theology itself in the attempt to combat idolatry *Getting to Know Germany* Nicola Wright,Janine Amos,Emma Sansone,1993-03-01 Five fascinating titles take kids
