

## What may lurk in the shadows of deep space?

*Arvoop is the lone artificial person aboard the space ship Orestes, traversing a singularity worm-hole to a distant galaxy; Samantha is the only female crew member. They came together in a distant past when equal treatment in the dark reaches of space was not assured, and even a routine cargo run could disappear without a trace. But can they save their ship when eerie figures and strange accidents begin to plague their voyage? And what did the young spacer, Williams, the only crewman to stay on the ship from the previous run, mean that the Orestes has 'too many shadows'?*

*H.P. Lovecraft himself said of the source material for The Ghost-Field Transcript, "... suggestive of latent horrors in nature, this book at times reaches enviable peaks of power."*
